DETAILED ACTION

Information Disclosure Statement

1. The information disclosure statement filed May 18, 2005 fails to comply with 37 CFR 1.98(a)(3) because it does not include a concise explanation of the relevance, as it is presently understood by the individual designated in 37 CFR 1.56(c) most knowledgeable about the content of the information, of each patent listed that is not in the English language.

MPEP 609 states that "Submission of an English language abstract of a reference *may* fulfill the requirement for a concise explanation," yet in this case the English abstract clearly anticipates claims 1, 10, 12, 13 and 14. In this case, the English abstract is an inadequate statement of relevance.

An actual statement of relevance is required or, preferably, a complete English translation of the reference could be submitted.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1, 10, 12, 13 and 14 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by the English abstract of 2001-0094843 published November 3, 2001.

Conclusion

4. The indicated allowability of claims 1-20 is withdrawn in view of the newly discovered prior art reference.
